Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 10, 12-14, 16, drawn to cDNA libraries in which the sense strand cDNAs are immobilized at the 5' end.

Group II, claim(s) 7-9, 11, 15, drawn to methods for synthesizing a cDNA.

Group III, claim(s) 17-18, drawn to a protein library and a method of preparing the protein library.

Group IV, claim(s) 19, drawn to a method of subtracting cDNAs.

3. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons.

As provided in 37 CFR 1.475, unity of invention will exist in the instances where there is a special technical feature and the claims are drawn to a single category of invention. The instant application is not drawn to a single category because the claims are drawn to two methods and two products.

Moreover, the claims do not relate to one invention only or to a group of inventions so linked as to form a single general inventive concept. The technical feature of Group I appears to cDNA libraries in which the sense strand cDNAs are immobilized at the 5' end. The technical feature of Group II appears to be synthesizing a cDNA using a primer which is at the 5' side. The technical feature of Group III is a protein library product. Finally, the technical feature of

Art Unit: 1634

Group IV is a method of selecting subtracted cDNAs. Each of these features differs, therefore, there is no special technical feature which links the groups. Therefore, since there is no special technical feature which links the inventions, the claims are drawn to numerous different inventions which lack unity.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeanine Goldberg whose telephone number is (703) 306-5817. The examiner can normally be reached Monday-Friday from 8:00 a.m. to 5:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Jones, can be reached on (703) 308-1152. The fax number for this Group is (703) 305-3014.

Any inquiry of formal matters can be directed to the patent analyst, Pauline Farrier, whose telephone number is (703) 305-3550.

Any inquiry of a general nature should be directed to the Group receptionist whose telephone number is (703) 308-0196.
